

The Committee for the consideration of Ways and Means of meeting the Budget met in Dr. Levy's office. The following suggestions were made as a possible medium of reaching our end:-

- (1) That we adopt as a policy that all annual dues shall fall due on the first of the year, instead of having them distributed all over the year as we do now.
- (2) That a Committee be formed to see and secure from colored people, particularly those who can give appreciable amounts, a donation.
- (3) That directors be expected to contribute a certain minimum sum, and that they secure additional sums.
- (4) That the organization give one or two functions of a cultural and educational nature annually.
